IT & NETWORKING/ PABX CCTV/ ACTIVE & PASSIVE

07

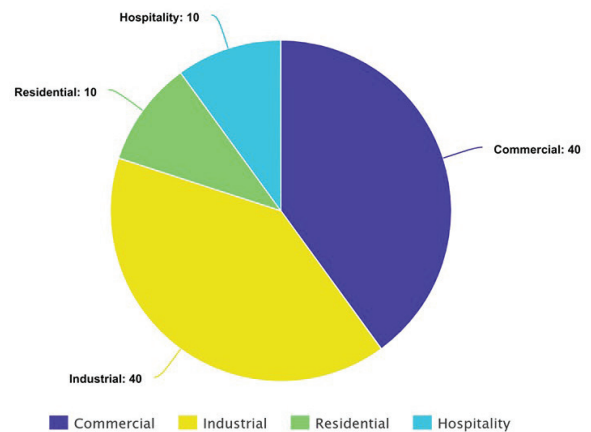

Experienced IT and CCTV Specialist with a proven track record in designing, implementing, and maintaining robust IT infrastructure and surveillance systems. Possesses a deep understanding of network architecture, cybersecurity protocols, and CCTV technologies to ensure optimal operational efficiency and security for diverse organizational needs. Skilled in troubleshooting complex IT issues and optimizing CCTV setups for maximum coverage and clarity. Dedicated to delivering seamless integration of IT solutions and CCTV systems to enhance organizational security and operational effectiveness.

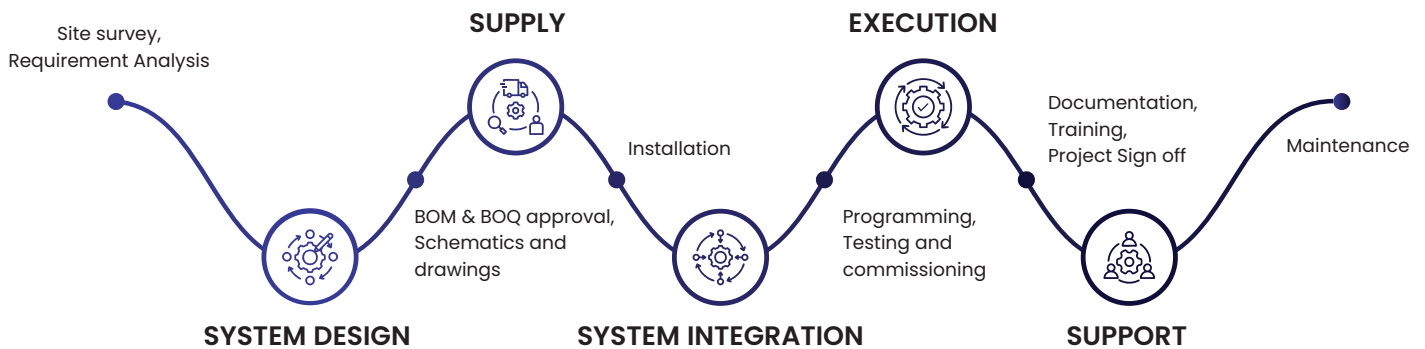

MARKET

The pie chart depicting the market distribution of CK Engineer services shows a clear dominance in commercial & industrial projects, occupying 40% of the total market share. This sector encompasses a wide array of engineering services tailored for businesses and industrial facilities. Residential services

follow with 10% of the market, emphasizing their substantial involvement in housing projects. The hospitality sector holds 10% of the market share, indicating our role in supporting infrastructure for hotels and resorts. CK Engineer's diversified market strategy, focusing prominently on commercial & industrial projects while also maintaining a significant presence in residential, hospitality sectors.

At CK Engineers, the workflow begins with a thorough site survey and requirement analysis to understand project needs and constraints. This is followed by system design, where detailed plans and specifications are developed. Once approved, Bills of Materials (BOM) and Bills of Quantities (BOQ) are finalized for procurement. Schematics and drawings are then created to guide the installation process. After procurement, components are supplied and installed according to the designs. System integration and programming follow, ensuring all components work seamlessly together.

Testing and commissioning are crucial stages to verify system functionality and performance. Upon successful testing, the project moves to execution where documentation is completed to record project details comprehensively. Training is provided to users, and once the project is signed off, ongoing support and maintenance ensure continued reliability and performance of installed systems. This structured workflow at CK Engineers ensures systematic project management from initial analysis through to long-term support and maintenance.

Focuses exclusively on innovation with a team comprised of industry veterans who have extensive **experience in industrial installation, Hospital Electrification and Interiors.**

Its our goal to keep our customers happy in Industrial HT & LT are Iron and steel, Automobile factories, Textile mills and cement industries etc. Work execution includes substation, internal and external electrification with new technologies like automation. We, at CK Engineers, walk the extra mile and deliver beyond expectations to ensure that the client is fully satisfied.

We also specialize in the design, installation and supply of low & high voltage switch gears. for Hospital projects work which includes major operation theatres, MRI centers, power distribution, lighting, Bus duct, protection & also offices, malls, hotels, industries, parks etc.

OUR CLIENTS

22

The electrical work for our office was completed efficiently and ahead of schedule, exceeding our expectations.

Rajesh Kumar

Our home's plumbing service was impeccable; their expertise made all the difference.

Priya Sharma

Their mechanical solutions are pivotal for our projects; they deliver excellence consistently.

Amit Patel

Their innovative electrical design for our restaurant was flawless and impressive.

Sneha Rao

Their fire protection expertise proved crucial; they were reliable and quick to respond.

Vikram Singh

Their integrated solutions made our office overhaul seamless and efficient.

Neha Verma

The team's electrical expertise streamlined our construction process, making everything

Swati Gupta

The overhaul they provided transformed our home; their team's expertise is remarkable.

Sneha Rao

Their HVAC installation significantly improved our building's efficiency; their service comes highly recommended.

Rahul Desai

The team's electrical expertise streamlined our construction process, making everything effortless and on time.

Arjun Mehta

Our plumbing issues were resolved flawlessly; the team's professionalism was unmatched.

Ritu Malhotra

Their innovative HVAC solutions brought incredible energy efficiency to our workspace.

Manish Saini

The fire safety system they installed gave us peace of mind; their attention to detail is exceptional.

Aditi Kapoor

Their maintenance services ensured our systems stayed operational without any hiccups.

Varun Batra

Their home automation solutions exceeded our expectations, adding convenience and sophistication to our daily lives.

Kavita Nair

Their electrical services were top-notch, transforming our outdated systems into state-of-the-art technology.

Rohit Khanna

The plumbing overhaul they provided added both reliability and efficiency to our facilities.

Tanya Saxena

Their mechanical systems upgrade significantly improved our production capacity with minimal downtime.
